

From Particles to Waves

Towards Coupling Dynamic
Snow Modelling and Spectral
Elements to Detect
Avalanche Breakoff in DAS
Data

Salome Bachmann

August 4, 2026

Overview

- Created 3 different models for crack propagation in snow using SALVUS
- Two pure spectral element (SE) models, one combined with data from material point method (MPM) simulations
- **Goal:** Couple dynamic snow modelling with SE to model crack propagation in snow
